Click

ALPINE SKIING

CLICK Gabel system uses a lever that releases the strap easily by pressure on a button. Simple, reliable, safe, its hold up to 35 kg. Beyond this limit, the system releases the straps automatically.

Le système CLICK Gabel utilise un levier qui libère la courroie par simple pression sur un bouton. Simple, fiable, sûr, sa capacité de traction maximale est de 35 kg. Au-delà de cette limite, le système libère la main automatiquement.

Il sistema CLICK Gabel utilizza una leva che sgancia agevolmente il passamano mediante la semplice pressione esercitata su un pulsante. Semplice, affidabile, sicuro, la sua capacità massima di trazione è di 35 kg. Oltre questo limite il sistema si sgancia in caso di caduta o bloccaggio del bastoncino.

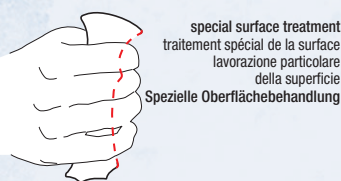

Das CLICK-System beruht auf einem Hebel, der die Schlaufe löst, sobald der Knopf am oberen Teil des Griffes heruntergedrückt wird. Funktionelle Vorteile:
- Einfachheit: lässt sich leicht auf- und zuklicken
- Zuverlässigkeit: funktioniert mit einer Fingerbewegung
- Sicherheit: die maximale Zugkraftkapazität des Systems beträgt 35 Kilo. Das heißt, dass die Hand im Fall eines Sturzes oder einer Skistockverklebung befreit wird

Ergonomic and lightweight for a new concept of comfort in skiing: BIOMATRIX, a new grip with quick release system, unique in the market without any metal, weighing 30% less than the grips in the market. Ergonomic design.

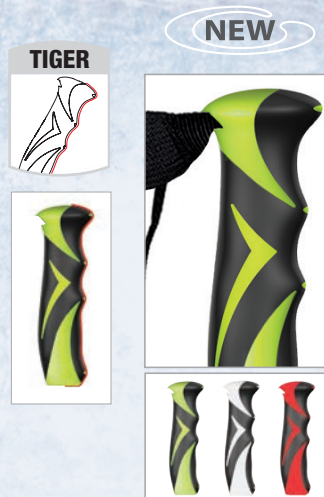

Ergonomie et légèreté pour un nouveau concept de confort en ski: BioMatrix, une nouvelle poignée à dégagement rapide, tout à fait unique, sans aucun métal, 30% plus légère que les poignées réalisées jusqu'à présent.

Ergonomia e leggerezza per un nuovo concetto di comfort nello sci: BIOMATRIX, un'impugnatura dotata di sgancio rapido del passamano, unico nel mercato senza alcuna parte metallica, di peso oltre il 30% inferiore rispetto alle impugnature finora realizzate. Design ergonomico.

Ergonomie und Leichtigkeit für ein neues Konzept des Komforts beim Skisport: Das auf dem Markt einzigartige, innovative System der Freigabe der Handschlaufe ohne irgendwelche Metallteile erweitert den Komfort des Neulings in der Griff-Palette Gabel, der BIOMATRIX. Das Resultat ist ein mit Schnelfreigabe der Handschlaufe versehener Griff, dessen Gewicht um 30% weniger als das der bisher realisierten Griffe beträgt.

Tiger

ERGONOMIC GRIP

comfortable grip
poignée confortable
impugnatura confortevole
Komfortabler Griff

Tiger, the new Gabel grip for the Racing and Hi-Performance communities; studied and developed in all the aspects. Made of bi-material (hard-soft), reaches an ideal system grip/ski pole to grant the best grip for a perfect control with an incomparable comfort.

Tiger, la nouvelle poignée par Gabel, spécialement conçue pour les compétiteurs et les adeptes de grandes performances. Etudiée et développée dans les moindres détails. Fabrication bi- matière (rigide et souple) pour un système idéal de poignée de bâton de ski permettant d'atteindre la meilleure adhérence, un contrôle parfait et un confort incomparable. Essayez une paire, et amusez-vous !

Tiger: la nuova impugnatura di Gabel per la competizione, studiata nell'ergonomia fino ai minimi particolari. Costruita in bimatereale, conferisce rigidità al sistema impugnatura/bastoncino per garantire una presa ottimale, ma soprattutto un controllo perfetto con un comfort inimitabile.

Tiger heisst die neue Griffform von Gabel für den Rennlauf und für professionelle Skifahrer. Construita in bimatereale, conferisce rigidità al sistema impugnatura/bastoncino per garantire una presa ottimale, ma soprattutto un controllo perfetto con un comfort inimitabile. Die 2-Komponenten Konstruktion (hart/weich) ermöglicht ein ideales System Griff/Skistock für eine perfekte Kontrolle und einen unvergleichbaren Komfort. Teste ein Paar, fühl es und hab Spass dabei!

Snake Carbon

TECHNOLOGY

The recent "Snake Carbon" technology applied to the latest models developed by Gabel combines the excellent resistance of high modulus carbon fibre with a distinctive geometric structure, adding an innovative type of crystallisation technology. This process has made it possible to make the tubes 20% lighter, as well as boosting resistance by 18%. The combination of HD technologies with these new processes and materials has thus allowed us to introduce an outstanding new product onto the market.

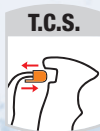

La récente technologie "Snake Carbon" appliquée aux derniers modèles conçus par Gabel unit la grande résistance du tissu en carbone haut module à une structure géométrique spéciale, ajoutée à une innovante technologie de cristallisation. Ce processus a permis la réduction du poids des tubes d'environ 20% en augmentant leur résistance de 18%. Et donc, l'union des technologies HD à ces nouveaux processus et matériaux nous a permis d'introduire sur le marché, une nouveauté de très haut niveau.

La recente tecnologia "Snake Carbon" applicata agli ultimi modelli sviluppati da Gabel, unisce l'elevata resistenza del tessuto in carbonio ad alto modulo ad una particolare struttura geometrica, abbinata ad una innovativa tecnologia di cristallizzazione. Tale processo ha permesso la riduzione di peso dei tubi di circa il 20%, aumentandone la resistenza del 18%. L'abbinamento, quindi, delle tecnologie HD con questi nuovi processi e materiali, ci ha consentito di introdurre nel mercato una novità di altissimo livello.

Die kürzlich entwickelte, bei den neuesten von Gabel ausgearbeiteten Modellen angewandte Technologie "Snake Carbon" verbindet die hohe Widerstandsfähigkeit des Carbon-Gewebes mit hohem Modul mit einer besonderen geometrischen Struktur, kombiniert mit einer innovativen Kristallisierungstechnologie. Dieses Verfahren ermöglichte die Verminderung des Gewichts der Rohre um ca. 20%, bei gleichzeitiger Erhöhung der Widerstandsfähigkeit um 18%. Die Kombination der HD-Technologien mit diesen neuen Verfahren und Materialien hat uns somit in die Lage versetzt, eine Neuheit auf höchstem Niveau auf den Markt bringen zu können.

T.C.S. automatic

TOP CLICK SYSTEM

REMOVABLE AUTOMATIC STRAP

ADJUSTMENT

1

Pull the strap upwards, in order to open the top part of the grip

Tirez le gantelet en haut, en ouvrant la partie supérieure de la poignée

Tirare il passamano verso l'alto, in modo da aprire l'inserto nella parte superiore dell'impugnatura

Ziehen die Schlaufe nach oben, um die obere Seite des Griffes zu öffnen

2

Pull the top of the strap to enlarge it

Tirez la partie supérieure du gantelet pour l'allonger

Tirare la fibbia superiore del passamano per allungarlo

Verlangern die Schlaufe beim ziehen des oberen Teiles der Schlaufe

3

Pull the lower edge of the strap to make it shorter

Pour réduire la largeur du gantelet tirez la partie inférieure

Tirare il lembo inferiore per accorciare il passamano

Ziehen den niedrigen Teile der Schlaufe, um sie kürzer zu machen

A quick-release system allowing simple and secure strap adjustment, and also very easy replacement.

Sistema di sgancio rapido che consente una regolazione semplice e sicura del passamano e ne permette la sostituzione con assoluta facilità.

Ein Schnellauslösesystem erlaubt es dem Benutzer eine einfache und sichere Anpassung der Stockschlaufe und zudem einen einfachen Austausch.

Système de déclenchement instantané qui permet un réglage simple et sûr de la dragonne et en permet le remplacement avec extrême facilité.

A quick-release system allowing simple and secure strap adjustment, and also very easy replacement.

Fast Lock

SPRING S.F.L.

FAST LOCK

1

3

The innovative system FAST LOCK the external locking technology based on the eccentric mechanism, offering an alternative to the standard locking systems that need a rotation of the tubes. This system locks the tubes through an external lever and it is really fast and reliable, even in extreme conditions of low temperature or when wearing gloves. In the new Fast Lock 2013 also the micrometric adjustment system has been improved. The adjustment can be done manually, without any additional tools.

Le système innovateur FAST LOCK, une technologie de verrouillage extrême basée sur un mécanisme excentrique, offrant une alternative au système de verrouillage standard demandant une rotation des tubes. Ce système verrouille les tubes en utilisant un levier externe, rapide et fiable, même dans des conditions extrêmes de basse température ou en portant des gants. En outre dans le nouveau Fast Lock 2013, le système de réglage micrométrique a été amélioré. Le réglage peut être fait manuellement sans l'aide d'outils supplémentaires.

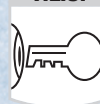

Il sistema FAST LOCK si basa sui principi della chiusura a morsetto, proponendo un'alternativa ai sistemi tradizionali che non obbliga la rotazione dei tubi, ma ne crea il bloccaggio attraverso un meccanismo a leva esterno, efficace e rapido anche a basse temperature e con l'uso dei guanti. Nel nuovo Fast Lock 2013 inoltre, è stato migliorato il sistema di regolazione micrometrico. La regolazione può essere fatta manualmente, senza l'ausilio di ulteriori utensili.

Das aussen liegende FAST LOCK Verstellsystem basiert auf einem exzentrischen Verschlussmechanismus, der eine echte Alternative zu den innen liegenden Konusverschlussystemen darstellt, bei dem die Rohre gegeneinander verdreht werden müssen. Mit FAST LOCK lassen sich die Stöcke rasch auch bei Kälte und mit Handschuhen zuverlässig verstellen. Beim neuen Fast Lock 2013 wurde außerdem das mikrometrische Einstellsystem verbessert. Die Einstellung kann manuell erfolgen, ohne Zuhilfenahme weiterer Werkzeuge.

Fls Strap

FIT-LINK SYSTEM

F.L.S.

The Gabel Fit-Link System 3D strap increases performance, safety, and comfort to the max. For demanding technical treks and even more demanding trekkers, use Gabel F.L.S., an optional for all poles featuring T.C.S.

Le Fit-Link System de Gabel améliore vos performances, votre sécurité et vous offre un confort maximum. Pour les randonneurs les plus exigeants et les trekkings les plus techniques, une unique solution: Gabel F.L.S. Le Fit-Link System de Gabel améliore vos performances, votre sécurité et vous offre un confort maximum. Pour les randonneurs les plus exigeants et les trekkings les plus techniques, une unique solution: Gabel F.L.S.

Il Fit-Link System di Gabel aumenta la performance e la sicurezza offrendo il massimo comfort. Per chi è appassionato dell'estremo, un'unica soluzione: Gabel FLS, accessorio opzionale per tutti i modelli con T.C.S.

Höchste Performance, Sicherheit und Bequemlichkeit dank dem Fit-Link-System (3D Schlaufe) von Gabel. Gabel F.L.S. ist für die anspruchsvollsten Trekkers und die schwierigsten Bergstrecken. Fit alle Modelle mit.

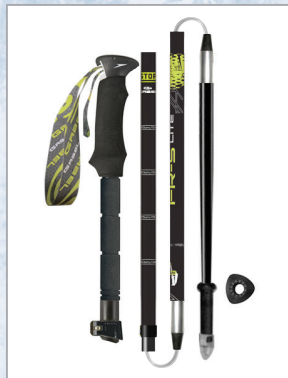

Wired

TECNOLOGY

WIRED
TECNOLOGY

The innovated technology WIRED will allow you to bend your pole, using a simple button.

The different pole's sections are connected with a high-strength cable.

The advantage of this technology is having a pole very compact, light, less bulky and easy to carry.

L'innovativa tecnologia WIRED vi permetterà di piegare il vostro bastoncino dopo l'uso per avere il minor ingombro possibile, utilizzando un semplice pulsante. Le diverse sezioni del bastoncino sono unite tra loro con un cavo in acciaio rivestito in plastica. Il vantaggio di questa tecnologia è avere un bastoncino compatto, leggero, poco ingombrante e facilmente trasportabile.

Die innovative WIRED-Technologie ermöglicht es, den Stock auf ein sehr kompaktes Packmaß zu falten, einfach und schnell durch dem Pinverschluss. Durch das Zeltstangenprinzip ist der Stock im Handumdrehen wieder einsatzbereit. Der Vorteil liegt im Rucksacktauglichen Packmaß und der einfachen Bedienung. Leicht, stabil, getestet.

La technologie innovante WIRED vous permettra de plier votre bâton, en utilisant simplement un bouton. Les différentes sections du bâton sont reliées entre elles par un câble. L'avantage de cette technologie est d'avoir un bâton compact, léger et facilement transportable.

Multi

LOCKING SYSTEM

In order to maximize the locking power of the models featuring the FAST LOCK, Gabel introduces the MULTI LOCKING concept that couples the locking force of the lever with the reliability of the traditional locking system with expander. The addition of an extra locking mechanism, the LITE LOCKING SYSTEM, guarantees total hold of the pole in every temperature and terrain condition.

Afin de maximiser la capacité de verrouillage des modèles équipés du système FAST LOCK, Gabel introduit le concept MULTI LOCKING qui allie la force de verrouillage du levier à la fiabilité du système de verrouillage traditionnel avec extenseur. L'ajout d'un système de verrouillage supplémentaire, le système LITE LOCKING, assure une performance maximale du bâton quelles que soient les conditions climatiques ou de terrain.

Per ottimizzare il bloccaggio dei prodotti con FAST LOCK, MULTI LOCKING unisce la tenuta del morsetto all'affidabilità del tradizionale sistema ad espansore. Un secondo sistema di bloccaggio interno, il LITE LOCKING SYSTEM, assicura inoltre la totale chiusura in ogni condizione di temperatura e terreno.

Um die Blockierung der Produkte mit FAST LOCK zu optimieren, stellt Gabel das Konzept MULTI LOCKING vor, das den Halt der Klemme mit der Zuverlässigkeit des traditionellen Systems mit Expander verbindet. Das Hinzufügen eines zweiten internen Blockiersystems, des LITE LOCKING SYSTEM, sichert vollkommenes Schließen unter allen Temperatur- und Terrainbedingungen.

N.C.S.

NORDIC CLICK SYSTEM

1_Push the plastic edge till the end of the hole (you will hear a click).

Poussez l'extrémité en plastique jusqu'à la fin du trou (vous entendrez un clic).

Inserire completamente la testa in plastica del passamano nel foro dell'impugnatura (si deve sentire un "click").

Drücken Sie den Kunststoffstift bis zum Ende der Öffnung (Sie werden einen Klick hören).

2_The strap is now fixed.

Maintenant la dragonne est fixée.

Il passamano ora è fissato all'impugnatura.

Die Griffschlaufe ist jetzt fixiert.

3_Release your hand from the pole by pushing the top button N.C.S.

Relâchez votre main du bâton en appuyant sur le bouton en haut.

Premere il pulsante in testa all'impugnatura per rilasciare il passamano N.C.S.

Lösen Sie die Hand aus dem Stock durch drücken des oberen Knopfes.

4_Your hand is now free!

Maintenant votre main est libre!

La Vostra mano ora è libera!

Ihrer Hand ist jetzt frei!

Dual Spike

DUAL SPIKE

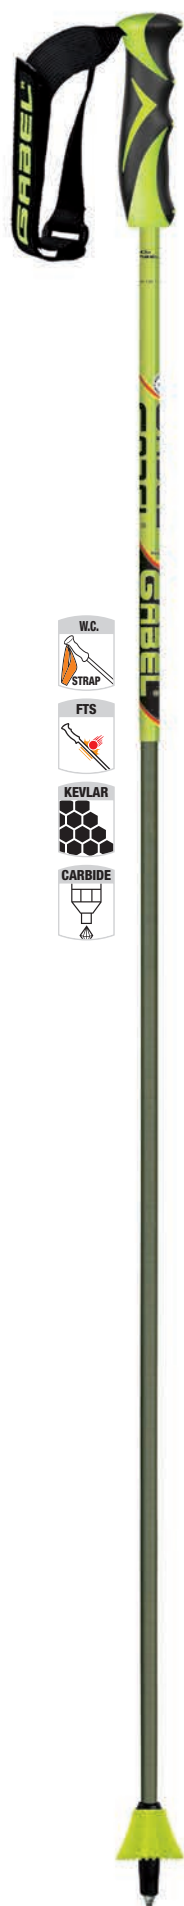

An innovation in alpine ski poles, developed in cooperation with the athletes of the top national teams. The new dual spike ensures high performance and control both uphill and downhill, especially on tricky slopes and icy snow or rocks.

Une innovation dans le domaine du bâton de ski de randonnée, développé en coopération avec les athlètes des meilleures équipes nationales.

Le nouveau DUAL SPIKE, avec poignée super confortable, s'avère efficace et sûr, tant en montée qu'en descente, en particulier sur les surfaces rocheuses ou glacées.

Un'innovazione nel bastoncino da sci alpinismo, sviluppata in collaborazione con gli atleti delle migliori squadre Nazionali. La nuova doppia punta è di grande utilità e sicurezza sia in ascesa che in discesa, specie nei pendii critici e sulle nevi ghiacciate o rocce.

Eine Innovation auf dem Gebiet der Skitourenstöcke, entwickelt in Zusammenarbeit mit den Sportlern der besten nationalen Teams. Der neue DUAL SPIKE mit seinem unvergleichlichen Griff ist sowohl beim Aufstieg als auch bei der Abfahrt effizient und sicher, besonders unter kritischen Bedingungen mit vereistem Schnee und Felsen.

LIGHTS SAFETY

Gabel got a Bright Idea! Set of four L.E.D. lights for your outdoor activities: to also have more fun at night! Ideal to clip on your poles, perfect to see and be seen! Safety First!

Gabel a eu une idée lumineuse! Ensemble de quatre lumières L.E.D. pour vos activités de plein air: pour avoir plus de plaisir dans la nuit! Idéal pour attacher à vos bâtons, parfait pour voir et être vu! La sécurité d'abord!

Gabel ha avuto una brillante idea! Un kit di quattro luci a L.E.D. pensate per le vostre attività outdoor: divertitevi in sicurezza anche al buio! Ideali da applicare ai vostri bastoncini, perfetti per vedere ed essere visti! La sicurezza prima di tutto!

Gabel hat eine Idee gehabt, da geht ihnen ein Licht auf! Ein Paket aus vier L.E.D. Lampen für ihre Aktivitäten im Outdoorbereich: Auch um mehr Spaß bei Nacht zu haben! Optimal geeignet, um diese an den Stock zu clippen. Perfekt um zu sehen und auch um gesehen zu werden! Denn es gilt: Sicherheit geht vor!
