NORDICA

ABOUT NORDICA

It's for all who don't just ski,
but who love to ski. For every skier who
makes each run one to remember. And
for the people who pass their powder-packed
hearts down from one generation to the next.
We're for any and every skier who lives for
all-mountain adventure.

This goes out to the boots and the skis that
take us out on journeys farther than we ever
thought we could go, and bring us closer together than
we ever believed we could be.

Together we have created family and
fellowship. Even in the wind-blown face
of adversity, we have never given up and
we have never given in.

Here's to following our own compass no matter
where it takes us. To doing things our way.

We are Nordica. Trusted since 1939.

**TOGETHER
WE ARE
FIT FOR THE
LONG RUN.**

OUR BRAND VISION
BE THE ALPINE BOOT
AND SKI BRAND
MOST TRUSTED BY
THE GLOBAL SKIING
COMMUNITY.
OUR VISION CHARTS
OUR COURSE
FOR THE FUTURE.

BRAND VALUES
PASSION

OPTIMISM

NORDICA

ABOUT NORDICA

The traditional Italian brand Nordica is synonymous for skis and ski boots with uncompromising performance, top quality, passion and consistent innovation. The aim to support every skier's performance to the best possible extent and to improve individual skiing levels is the basis of every product and every small detail. At the same time, having a good feeling with the products and wearing comfort is a top priority. With its collection, Nordica offers ideal products for all ski enthusiasts – from racing over Allmountain to Freeski. Nordica develops high-tech products for the winter sports market worldwide following the motto “from skiers for skiers”. The input from the close collaboration with Nordica's top athletes plays an important role here as well, and has been the recipe for success and part of the company history from the very beginning. Nordica belongs to Tecnica Group S.p.A. (Gaiè del Montello, Italy), one of the worldwide leading winter sports enterprises.

*“Nordica is the fastest growing brand in ski industry, thanks to innovative products that are strongly established on the market. With Speedmachine® & Sportmachine franchise, Infrared technology, Enforcer, new Strider and Navigator, we were driving the sales growth of more than 15% in 2017. **Trusted** by the dealers and loved by consumers. Strength of Nordica lies especially in the team of Nordicans and in the **human** approach we have with our partners and customers. We are focused on specialized dealers with personal service that can communicate properly our brand values.*

*In 2018/19 collection we are introducing concepts that represent benchmarks on the market, to put Nordica in the **leadership** position. New **Promachine** 98mm lightweight high performance with walkable GripWalk® Michelin® soles and **Dobermann**® racing project are setting the benchmark in ski market. Team Nordica is **Fit For The Long Run** and determined to reach Number 1 position."*

Luka Grilc,
Brand Manager Nordica

NORDICA'S HISTORY

- 1939** Adriano and Oddone Vaccari founded Nordica in Montebelluna, Italy.
- 1950** As one of the first Nordica get's its inspiration at product development of their Athletes and named the boot Zeno Colò Olympic after the successfull skier.
- 1963** As the first producer on the skiing market Nordica applies the **“buckle”** fastening system.
- 1967** Nordica pioneers the production of boots composed of **plastic**.
- 1969** Nordica developes the technology for manufacturing the **injection** molded ski boot.
- 1974** Nordica sets up its first affiliate in the United States. Other affiliates open in Austria, Japan, Switzerland, France, and Germany. Nordica accounts for 30 percent of world production.
- 1999** Nordica's famed racing R&D creates the famous Dobermann® boot.
- 2000** Freshly out of the press the first Nordica ski enter the market.
- 2014** Nordica wins the Brand Man Slalom Ranking thanks to their successful athletes like Felix Neureuther and Fritz Dopfer.
- 2015** Nordica Dobermann® GP 130 wins ISPO Award.
- 2016** Nordica introduces Infrared Technology customization boot.
Nordica new Speedmachine 130 wins ISPO Golden Award.
- 2017** Nordica new Strider 130 DYN wins ISPO Award.

SKIBOOTSTECHNOLOGIES

INFRARED TECHNOLOGY CUSTOMIZED DONE RIGHT

The true key in creating a custom boot design is not whether you can manipulate the natural form of a boots shell but rather, to create a boot design that can easily and effectively deliver the proper level of modifications, in critical areas, that will benefit not only the fit of the boot but will also enhance its on snow performance and feel. For this reason we developed our Infrared Heating Element and our Tri-Force shell. We saw the need to create a boot design and a customization technology that would work together to deliver the perfect amount of customization, only to areas of the shell where it's needed. We also saw the need to create a system that was accurate and easy to use, saving time and eliminating mistakes. The key component in achieving this is the Infrared Heating lamp, heating the plastic of the boot quickly from the inside out, at a right temperature. This allows the boot to remain undamaged by the heating element and for the customization to take a permanently defined shape.

INFRARED TECHNOLOGY BENEFITS

- SIMPLE & FAST
- INFRARED HEATING = NO DAMAGE ON BOOT
- TARGETS CUSTOMIZATION ONLY WHERE ITS NEEDED

CROCODILE

The Crocodile Infrared Customization tool takes the process of punching traditionally designed skis boots to the next level. Engineered with a flexible shaft and a quick set punch die mounting plate, allows you to both quickly and effectively reach all of those hard to reach areas faster and easier then ever before.

	DOBERMANN SERIES	PROMACHINE SERIES	SPEEDMACHINE SERIES	SPORTMACHINE SERIES	STRIDER SERIES
INFRARED	•	•	•	•	•
TIME	9'	9'	6'	6'	6'

INFRARED SHELL FIT TECHNOLOGY PROCEDURE

1. Step in the boot
2. Highlight the pressure points on boot
3. Step out the boot
4. Remove the liner
5. Heat the area with the infrared lamp
6. Apply the suction cup element on warm area and start process until the pressure is neutralized (3 min max)
7. Remove the suction cup element
8. Replace the liner
9. Step in the boot

CUSTOM CORK FIT TECHNOLOGY CUSTOMIZABLE LINER FOR PERFECT FIT

CORK CUSTOMIZATION TECHNOLOGY
DIRECT POWER TRANSMISSION + COMFORT

BENEFITS

- QUICK & CLEAN CUSTOMIZATION
- EASY TO DO
- REPEATABLE PROCEDURE

SUPERIOR PERFORMANCE

The specifically engineered cork compound integrated into the liners construction, wraps the foot in comfort and performance.

MOLDABLE

Cork naturally forms to the contours of your feet over time through body heat, making the liners comfortable and seamlessly integrated with the boot's shell for maximum performance.

FAST AND EASY CUSTOMIZATION

If time is tight Nordica's Custom Cork Liner, can be custom fit in 13 minutes. Additionally, the simple three-step process is endlessly repeatable.

NORDICA SOLES

Advancements in binding designs and boot sole configurations have allowed us the offer a number of different boot sole detentions allowing for more grip, comfort and performance.

5355: ALPINE NORM

Traditional alpine soles which are most common on most ski boots today. They are designed with ISO 5355 geometry and work safely Traditional Alpine Bindings.

9523: GRIP WALK

Today's skier demands a ski boot that is more and more comfortable and offers technologies that make walking in their boots easier than ever before. Nordica Gripwalk® is an easy walking rocker sole interface that is ready to fit into the Marker Gripwalk® bindings and other similar systems available in the market. Nordica Grip Walk Soles are 9523 geometry and should not be used with Traditional Alpine Bindings.

RACING SOLES: NON DIN

To allow racers to achieve the best possible set up for their equipment, Nordica World Cup Dobermann® boots come with a NON DIN sole. Before skiing DIN lugs must to cut to match ISO 5355 geometry. DIN cutting must be done an industry professional using the proper tools.

PRIMALOFT® INSULATION LINER THE WARMEST LINER ON THE MARKET

PRIMALOFT® IS FEATURED EXCLUSIVELY IN THE 2018-19 BOOT LINEUP.

PRODUCT FEATURES

- SLIP-RESISTANT TECHNOLOGY
- ADVANCED THERMAL EFFICIENCY
- EXCELLENT WATER RESISTANCE FOR PROTECTION
- DESIGNED FOR COMPRESSIONAL RECOVERY

ADJUSTABLE CUFF PROFILE

Our Adjustable Cuff Profile Mechanism (ACP) allows with only one movement a neutral standing position for every leg size, making skiing all day easier and more comfortable no matter what the width of a skier's leg. Improves width respected previous mechanism.

WEATHER SHIELD

The Weather Shield is an overlap system integrated into the shell that provides a full waterproof feature to prevent water from leaking into the boot. And as we all know, dry feet are warm and comfortable feet!

SKI BOOTS COLLECTION

RACE ON PISTE

Dobermann®
Series

DOBERMANN GP CLASSIC ROCKS

THE NEW STANDARD IN *HIGH PERFORMANCE* SKI BOOTS

Starting from the ground up, using both the most modern technologies and over 75 years of boot design and development knowledge to build the most anatomical high performance boot on the market, Nordica presents the Dobermann GP. Inspired and born from racing, the Dobermann GP features a 98mm mono injected PU performance shell design, an intuitive easy entry in-step, an all new high performance custom cork liner, a Full Motion Pivot alignment system and a revolutionary new Power Driver Strap design. Nordica packed the best of 75 years of boot building experience into the Dobermann GP to create a high performance experience skiers will love.

FULL MOTION PIVOT: CANTING REINVENTED

A great tool, taking the customization of your boots performance to the next level. The Full Motion Pivot has two settings. Classic or "OFF" (as it comes out of the box) and Responsive or "ON", which allows the cuff to rotate outward 2 mm's to deliver more power and more control.

- OPTIONAL CUFF CUSTOMIZATION
- ENHANCED POWER TRANSMISSION TO THE EDGE OF THE SKI
- OPTIONAL STANCE FOR MAXIMUM EFFICACY
- MECHANICAL ADVANTAGE + CUSTOM PERFORMANCE

POWER DRIVER 60 MM

Nordica's patented power driver not only creates the perfect marriage between the upper cuff and upper liner, allowing them to uniformly and efficiently work as one, its PU construction lends itself to being fully customizable.

- INCREASED POWER TRANSMISSION
- HIGH PERFORMANCE + CONTROL + CUSTOMIZATION

INFRARED IMPLEMENTATION

TRI-FIT CUSTOMIZATION A NEW ERA IN BOOT CUSTOMIZATION

Tri-Fit Customization is the next level in truly personalizing ski boots. By focusing on the shell, the liner and the key hardware components, we were able to create an easy to use technology that seamlessly and comfortably connects the foot with the liner and shell. The key to unlocking this technology is our Infrared Shell Customization Heating Element used in conjunction with our Nordica Custom Cork Liner system and oven. These two technologies allow 100% customization of both the liner and the boot shell, precisely in the areas where it is needed to achieve the perfect fitting of the ski boot.

GENETICS. ENGINEERING. INTRODUCING PROMACHINE

Promachine brings race boot precision, power and performance to the Machine family's legendary lightness, comfort and versatility.

THE 1ST 98mm, HIGH-PERFORMANCE ALL-MOUNTAIN SKI BOOT WITH A MICHELIN® GRIPWALK® SOLE

The new, fully integrated GripWalk® toe and heel system provides matchless Michelin® traction on snow, ice and almost any other surface skiers might encounter when they ski the whole mountain.

MOUNTAIN ACTIVE

Strider
Series

STRIDER

EXPLORE THE MOUNTAIN.

STRIDE UPHILL. RIP DOWNHILL.
WITH THE ULTIMATE HIGH-PERFORMANCE HIKE & SKI BOOT FROM NORDICA.

Our new family of super-lightweight, high-performance hike & rip boots are specially designed for men and women looking to open the whole mountain to skiing.

DESIGNED TO BE LIGHT, WARM AND COMFORTABLE.

ENGINEERED TO OUTPERFORM.

Our all-new Strider hike and ski boots are specially made for men and women skiers who'd rather ski new lines than stand around and wait in old ones. With their lightweight, modern design and 100mm last, they fit most feet right out of the box. Makes it easier to hike uphill without compromising downhill skiing performance.

HIKE MECHANISM

- Ultra-light cuff construction saves precious weight without sacrificing vital steering power and strength.
- Locked down, it delivers direct energy to the skis for that legendary Nordica downhill skiing performance.
- Opened, it promotes exceptional forward flex and facilitates hiking.

LIGHTWEIGHT CUFF TRI FORCE CONSTRUCTION

- Three different types of plastic combine to deliver maximum comfort, performance and ease of use.
- New lightweight Triax cuff is 20% lighter than one made of PU.
- Super stiff sole and spine transmit energy precisely and directly to the skis.
- Softer shell and cuff wrap comfortably around the foot and lower leg for a snugger, comfier & more precise fit.
- Super soft entry & exit flaps.
- A size 26.5 (305mm) Strider weighs 200 grams less than a comparable Speedmachine.

Grilamid® EMS (for Strider 130 DYN and Strider 115 W DYN)

BENEFITS

- HIGH RESISTANCE TO IMPACT STRESS ESPECIALLY AT LOW TEMPERATURES
- HIGH RESISTANCE TO TEMPERATURE STRESS (NO DIFFERENCE COLD/WARM)
- EXCELLENT RESISTANCE TO SCRATCHES
- LIGHTNESS (25 % LIGHTER THAN PU)
- EXCELLENT UV RESISTANCE

LACED 3D LIGHT CORK LINER WITH PRIMALOFT®

LIGHTWEIGHT BUCKLES CONSTRUCTION & DESIGN

- Each buckle weighs 37.5 gr. vs 53.0 gr. for a conventional buckle.
- All-new wire bail further reduces weight while closing the boot, snugly and firmly in place.

DYNAFIT® INSERTS (PRO DYN)

- Standard equipment on the Strider Pro 130 DYN, Strider 120 DYN and Strider 115 W DYN.
- Available as an after-sale kit for the Strider 110.
- Compatible with ultra-light Dynafit Tour bindings.

HIGH TRACTION SOLES + GRIPWALK® KIT READY

- Gripwalk soles mounted as standard equipment on models Strider Pro 130 DYN, Strider 120 DYN and Strider 115 W DYN.
- Strider 110 (no DYN) mounted with ISO 5355 Alpine soles.
- Available kit only for Strider Pro 130 DYN, Strider 120 DYN and Strider 115 W DYN 08A04500 Strider PU alpine soles (5355).
- For Strider 110 Gripwalk kit code 08A04300.

08A02900 000 - Strider Gripwalk Michelin Soles

COMPATIBLE

LIGHTWEIGHT MESH POWER STRAP

- Unique mesh construction with weight-saving cut-outs.
- Beefy, 45mm width enhances shin contact, for a snugger fit and more precise and direct steering control.

WATERPROOF WEATHER SHIELD

- Locks out the wet and cold, keeps feet dry and warm.

MICHELIN® RUBBER TECHNICAL SOLES

Building a hiking boot that hikes as well as a Nordica ski boot skis wasn't easy, which is why we invited Michelin to design, develop and construct a revolutionary new sole for our Strider family of hike and ski boots. The result is a fully integrated toe, arch and heel system that delivers matchless adherence and traction on snow, ice and almost any obstacle skiers are likely to meet in the face of adventure.

POWERED BY MICHELIN® TECHNICAL SOLES

FROM MICHELIN LATITUDE X-ICE
NORTH CAR WINTER TIRES
TO NORDICA GRIPWALK® SOLES

- BENEFITS**
- GRIP AND TRACTION ON ICY TERRAIN
 - STABILITY & LATERAL CONTROL
 - DURABILITY & WEAR RESISTANCE

- 1 CHAMFERS REDUCE DAILY WEAR AND TEAR
- 2 HIGH EDGES PROMOTE BETTER ADHERENCE
- 3 REINFORCING BRIDGE STRENGTHENS SCULPTURES
- 4 SCULPTURED ARCH PROVIDES STABILITY AND CONTROL WHEN WALKING ON UNEVEN SURFACES
- 5 MASSIVE SCULPTURES ON SHOULDERS PROVIDE LATERAL STABILITY
- 6 MULTI-FACETED SCULPTURES INCREASE BRAKING

CRUISE SPACE. CRAFT.

UNDISPUTED IN COMFORT AND FIT

The Cruise series is for the advancing All Mountain Sport Performance skier. It is designed to make an easier, more comfortable and a lot more enjoyable progression in technique. Cruise is the most generous fitting series offered in the 2018/19 Nordica collection, and is designed for those who like to have a great day on the snow at the highest level of comfort.

ADJUSTABLE CUFF PROFILE

INNOVATIVE BUCKLE DESIGN

NFS (NATURAL FOOT STANCE)

The Cruise boots features NFS which allows the skier to ski in their natural standing position while requiring less effort and ultimately making skiing easier.

The Natural Foot Stance enhances your performance:

**MORE PRECISION
LESS EFFORT
BETTER BALANCE**
