

+ SMART STORAGE & DRYING SOLUTIONS | SNOW

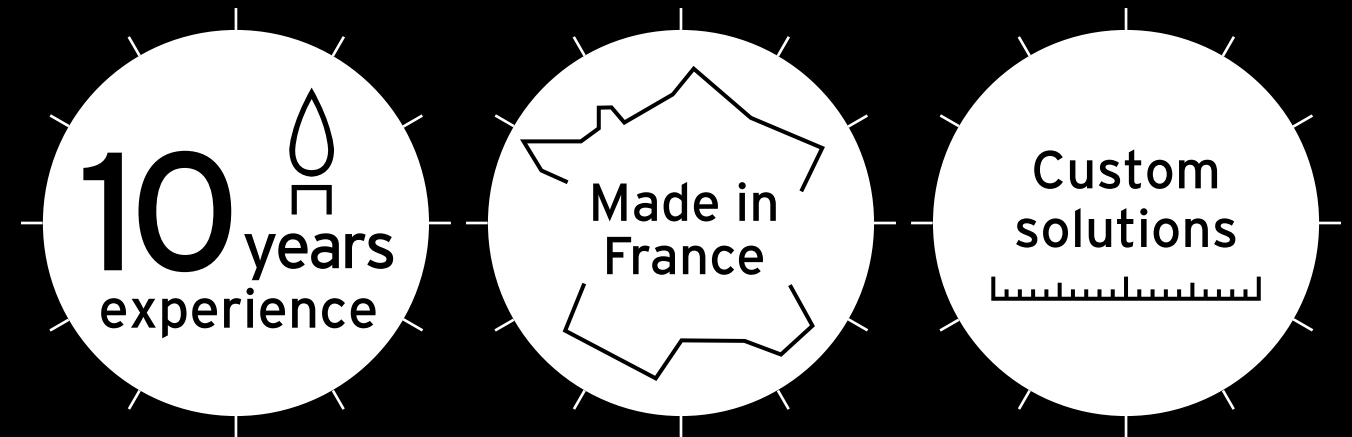

LODGE

# Koralp, the strength of experience

For ten years Koralp has been strengthening its **leadership position** in ski rental store storage and fixtures. By widening its technical storage range, the company has become the reference for ski schools, resort accommodation, ski lift companies, and individual ski home or apartment owners.

Each day we strive to improve our solutions thanks to our vast installed user base and customer experience, including hundreds of successful customer installations and the thousands of Koralp products in use. Our team is continually innovating our ski gear storage offering to stay ahead of the market and surpass customer expectations. This continual adaptation process spans new ways of storing, drying and even charging batteries, and involves adapting to changing end-customer needs, accommodating new sales channels, and evolving our service and **level of quality**.

# The Koralp brand, smart solutions

Designed in our research  
department

Built to last

Customized design

Koralp has built its reputation on the conception of innovative, **high-value** products and solutions. Each product range is designed for specific customer needs.

Whether you need to optimize or even reduce your storage space, you need fast, energy-saving drying capabilities, or you focus is design and ease of use, our **product development process** encompasses all these areas.

Your user experience feedback, your ideas, and your change requests, are the driving forces behind our creativity, ensuring we create the right solutions for your business. Designed by our R&D department and manufactured in the heart of the Alps, Koralp products are renowned for their **quality, robustness and modularity**, as well as their capacity to be seamlessly integrated into your store space.

# Koralp, custom made solutions

Snow sports are the main activity for your clients when they come to ski resorts, so you want to propose **storage and drying solutions** truly adapted to their needs. The “Lodge” range has been created specifically for holiday apartments, hotels and chalets. A ski room equipped by Koralp is a **guarantee of performance and comfort** for users – as well as keeping wet boots out of bedrooms.

To design the best solution for your needs, we closely analyse your way of working, study the designated storage area, and aim to fully understand the finer level detail you require.

Our 3D design tool lets us quickly create plans and layout proposals integrating your specific requirements, with the goal of rapidly defining the solution that will bring maximum **success to your project**. We discuss each proposal in detail, to ensure the selected solution best meets your needs in terms of storage capacity, of flexibility for future needs, and of optimum flow and circulation. Our goal is to guarantee **your real satisfaction**, by exceeding your expectations and adding value to your property.

K-STOKDRY-C

## K-STOKDRY-C

Wall-mounted boot dryer

As modular and space saving as the independent K-STOKDRY-A model, the centralized version has been designed for storage rooms with dozen of boot dryers where drying takes place at night. By dividing by 6 the number of electrical power supplies, the centralized model is ideal for deposit rooms, ski rooms and locker areas.
