**KORALP®**

# Koralp, the strength of experience

For ten years Koralp has been strengthening its **leadership position** in ski rental store storage and fixtures. By widening its technical storage range, the company has become the reference for ski schools, resort accommodation, ski lift companies, and individual ski home or apartment owners.

Each day we strive to improve our solutions thanks to our vast installed user base and customer experience, including hundreds of successful customer installations and the thousands of Koralp products in use. Our team is continually innovating our ski gear storage offering to stay ahead of the market and surpass customer expectations. This continual adaptation process spans new ways of storing, drying and even charging batteries, and involves adapting to changing end-customer needs, accommodating new sales channels, and evolving our service and **level of quality**.

# The Koralp brand, smart solutions

Designed in our research  
department

Built to last

Customized design

Koralp has built its reputation on the conception of innovative, **high-value** products and solutions. Each product range is designed for specific customer needs.

Whether you need to optimize or even reduce your storage space, you need fast, energy-saving drying capabilities, or you focus is design and ease of use, our **product development process** encompasses all these areas.

Your user experience feedback, your ideas, and your change requests, are the driving forces behind our creativity, ensuring we create the right solutions for your business. Designed by our R&D department and manufactured in the heart of the Alps, Koralp products are renowned for their **quality, robustness and modularity**, as well as their capacity to be seamlessly integrated into your store space.

# Koralp, custom made solutions

As your trusted **development partner**, our role is not limited to simply providing technical storage products. Together with you we analyze your way of working, we determine the best improvement opportunities for your business, and we integrate your feedback in terms of choice of equipment and set up.

Our 3D design tool lets us quickly create plans and layout proposals integrating your specific requirements, with the goal of rapidly defining the solution that will bring maximum **success to your project**.

We discuss each proposal in detail, to ensure the selected solution best meets your needs in terms of storage capacity, of flexibility for future needs, of optimum flow and circulation. Our goal is to guarantee **your real satisfaction**, by exceeding your expectations, by optimizing your investment, and by building a long-term relationship based on confidence and trust.

# Koralp, style and design

Ski rental is a major part of your business and **profitability**, and equipment storage and drying facilities are a predominant part of your store. Given their high visibility, it is critical that the look and feel of your storage equipment bring **value to your store space**. Koralp understands the positive impact that design and visual communication can have on customer behavior, which is why we offer **customizable panels** on all our storage and drying products.

Tool-free adjustment

# K-STORAGEEW

Boot rack with dryer option

The choice of boot storage racks forces to dry boots on a unique heated air system meaning additional handling to ensure all boots spend at least 1 hour on the dryer. Adding a half-tunnel heated air system into the K-STORAGE minimizes the handling of boots to have them dried, without losing any storage capacity.

Tube with cap

Electronic timer
