

+ SMART STORAGE & DRYING SOLUTIONS | SNOW

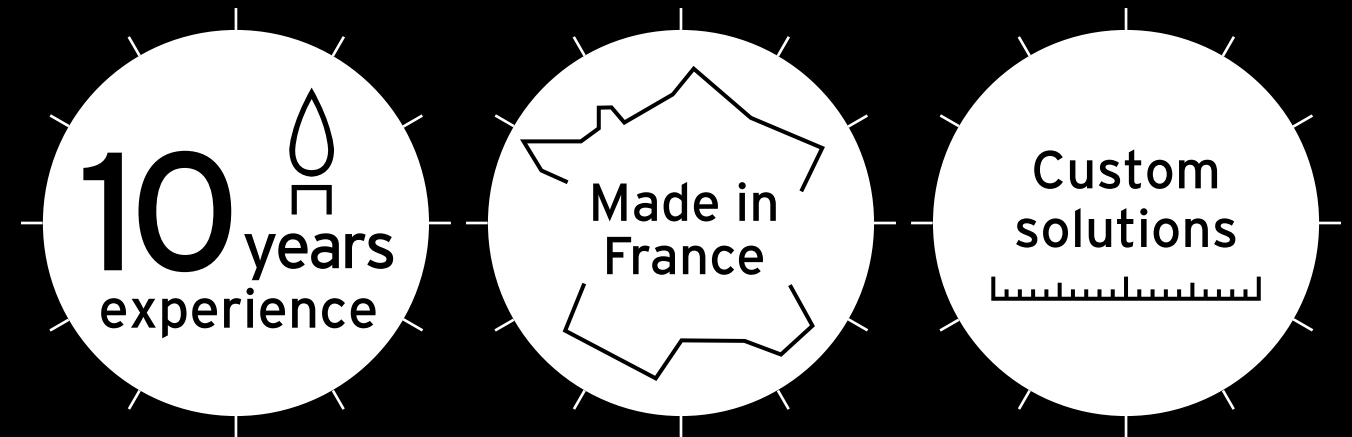

RETAIL

Koralp, the strength of experience

For ten years Koralp has been strengthening its **leadership position** in ski rental store storage and fixtures. By widening its technical storage range, the company has become the reference for ski schools, resort accommodation, ski lift companies, and individual ski home or apartment owners.

Each day we strive to improve our solutions thanks to our vast installed user base and customer experience, including hundreds of successful customer installations and the thousands of Koralp products in use. Our team is continually innovating our ski gear storage offering to stay ahead of the market and surpass customer expectations. This continual adaptation process spans new ways of storing, drying and even charging batteries, and involves adapting to changing end-customer needs, accommodating new sales channels, and evolving our service and **level of quality**.

The Koralp brand, smart solutions

Designed in our research
department

Built to last

Customized design

Koralp has built its reputation on the conception of innovative, **high-value** products and solutions. Each product range is designed for specific customer needs.

Whether you need to optimize or even reduce your storage space, you need fast, energy-saving drying capabilities, or you focus is design and ease of use, our **product development process** encompasses all these areas.

Your user experience feedback, your ideas, and your change requests, are the driving forces behind our creativity, ensuring we create the right solutions for your business. Designed by our R&D department and manufactured in the heart of the Alps, Koralp products are renowned for their **quality, robustness and modularity**, as well as their capacity to be seamlessly integrated into your store space.
