

SHRED.

SNOW 2025 - 2026

**PERFORMANCE ENHANCING EYEWEAR,
HELMETS, AND PROTECTION**

"I needed better products so I could take my performance to a higher level, and I needed them to look as good as they performed. In 2006, we launched SHRED. and created our own performance enhancing goggle and protection technologies for skiers, snowboarders, and mountain bikers. Today our commitment to innovation is stronger than ever and we keep pioneering revolutionary technology that boosts confidence, enhances performance, helps you have more fun on the mountain, and unlocks your inner pro. We have emerged as a market leader, building the products of our dreams that contributed to 15 Olympics medals and collected thousands of five star reviews from our customers while proudly maintaining our underdog status. Come SHRED. with us."

**Ted Ligety | 2x Olympic Gold Medalist
| 5x World Champion | SHRED. Co-
founder, Chairman, and Chief Brand
Officer.**

Protection | P 50
Ski Race Protection | P 64
Sunglasses | P 74
Accessories | P 84

A photograph of a snow-covered mountain peak at dusk or dawn. The sky is a deep blue-grey, and a thin crescent moon is visible in the upper right. The mountain's ridges are highlighted with a warm, reddish-orange glow, possibly from low-angle sunlight. The foreground shows a snowy slope with some dark rocks.

Built for **skiers, snowboarders,**
and mountain bikers seeking
to boost their confidence
and master the mountains.
SHRED.'s revolutionary
eyewear and protection
enhances your performance
to unlock your inner pro
and maximize your fun.
#ComeSHREDwithUs

WE ARE INNOVATORS

**In 17 years we amassed an amount of innovation that is unique in our space.
Technology developed to deliver performance that matters.**

 **ROTATIONAL IMPACT PROTECTION**

SHRED. MINIMAL PACKAGING PROJECT

At SHRED., innovation drives everything we do—including how we package our products. In 2020, we led the industry by eliminating plastic from our goggle and helmet packaging, pioneering a more responsible approach. By 2023, we advanced further, joining the Responsible Packaging Movement and adopting FSC-certified paper—setting a new benchmark for innovation and sustainability in our category.

SHRED. RECYCLED GOGGLE STRAPS

PHOTO | SAM DECOUT

In 2021, SHRED. introduced goggle straps made with 80% of their weight from recycled PET plastic bottles—an industry first. Debuting at the Beijing 2022 Olympics, these straps reflect our commitment to reducing environmental impact while delivering top-tier performance. Today, they're standard across all SHRED. goggles, proving innovation and responsibility go hand in hand.

CONTRAST BOOSTING LENS™ 2.0

Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from:

- > ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS
- > GLACIER to DEFEAT GLARE in Late Spring/Summer
- > NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light

SHRED.wide™

Engineered for an expansive field of view, our goggles employ a unique functional frame design. This approach ensures a vast and uninhibited visual range across all SHRED. goggle models, providing top-quality, undistorted vision in every direction.

At SHRED., we dismiss gimmicks and tricks, focusing solely on genuine performance enhancement. Our technologies are crafted for no other reason other than to make you the hero on the slopes. STOP messing with lenses. STOP messing with goggles. Empower Your Vision, Become the Pro.

CONTRAST BOOSTING LENS™ 2.0 SYSTEM

365/24/7. 3 (three) lenses.

All-year. All-day performance.

No confusion.

Just clarity.

Are you searching for the best performing ski and snowboard goggle that defeats FLAT LIGHT while providing the widest field of vision in the game and a distinctive, sleek, and frameless cylindrical lens style? If so, SHRED. Gratify is your best choice. It offers superior fit and comfort and features our revolutionary CONTRAST BOOSTING LENS™ 2.0 (CBL 2.0)* technology to DEFEAT FLAT LIGHT and greatly enhance vision performance in ALL weather and light conditions. Combined with NODISTORTION™ technology, it maintains perfect image clarity and eliminates optical distortion at all altitudes. The SHRED.wide™ design ensures a maximized field of view, allowing you to see more of the mountain and its terrain. Boost your confidence and performance for endless fun up and down the mountains. SHRED. Gratify is compatible with most prescription glasses (OTG).

*Available in select models. Other models feature our original Contrast Boosting Lens™ (CBL), designed to enhance contrast and image definition compared with traditional lenses.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ 2.0 | Our proprietary, MIT-developed, ALL CONDITIONS Lens Tech System DEFEATS FLAT LIGHT, boosts contrast in low/flat light, and reduces glare in brightness. Choose from: ICE to DEFEAT FLAT LIGHT and enhance vision performance in ALL CONDITIONS, GLACIER to DEFEAT GLARE in Late Spring/Summer, NIGHTTIME to DEFEAT DARKNESS in Night/Artificial Light.

*Select models only. Others feature original CBL™ for enhanced contrast and clarity.

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change..

SHRED. OTG | Designed to provide compatibility and comfort with prescription glasses.

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

TECH SPECS:

LENS | Ultra-high-optical-precision molded, cylindrical double lenses with tapered thickness to optimize vision at all angles and enhance impact protection. | 100% UVA-UVB-UVC protection | Super Anti-Fog

FRAME | Width: 170 mm | Height: 100 mm

STRAP | Width: 50 mm | Approx. 80% R-PET fibers from recycled plastic bottles | Triple silicone line backing | 2-point slide adjustment system

WEIGHT | 140 g

SUGGESTED FIT | S to L helmet size

IN THE BOX:

1 pair of SHRED. Gratify goggles | 1 SHRED. goggle soft case

SHRED. goggles packaging is 100% plastic free

VLT% IMPORTANT NOTICE | VLT% doesn't fully capture the human eye's experience with SHRED. Contrast Boosting Lens™ 2.0 Technologies. Unlike the human eye, it misses how the lens's polarization filter cuts glare and how the contrast enhancing formulations boost clarity and vision.

MONOCLE

Are you searching for a versatile ski and snowboard goggle that's extremely flexible and durable while also offering a retro look, an uninhibited field of view, the ability to see details on the snow in all conditions, and outstanding comfort and fit? If so, look no further than the SHRED. Monocle. To truly transform how you experience the mountains, its CONTRAST BOOSTING LENS™ (CBL) and NODISTORTION™ technology (available in select models) enhance contrast and image definition while SHRED.wide™ maximizes field of view.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances image contrast and definition for all weather and light conditions.*

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SHRED. NODISTORTION™ | Pressure regulation valve technology to provide crystal clear vision during altitude change.*

SHRED. NOCLOG™ | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

*Available in select models

TECH SPECS:

LENS | Cylindrical double lens | 100% UVA-UVB-UVC protection | Super Anti-Fog

FRAME | Width: 185 mm | Height: 105 mm

STRAP | Width: 40 mm | Approx. 80% R-PET fibers from recycled plastic bottles | Triple silicone line backing | 2-point slide adjustment system

WEIGHT | 130 g

IN THE BOX:

1 pair of SHRED. Monocle goggles | 1 SHRED. goggle soft case.

NASTIFY

If you're looking for a simple yet stylish smaller-fitting ski and snowboard goggle that provides a wide field of vision and unrivaled fit and comfort, then choose the SHRED. Nastify. It features SHRED.wide™ to maximize your field of view, a Grip on Strap silicone strip to hold them securely in place, and Super Anti Fog treatment. For exceptional comfort, it has an especially flexible frame. The Nastify gives you the confidence and control you need to boost your fun on the mountain.

FEATURES:

SHRED.wide™ | Goggles designed and engineered to maximize your field of view.

SUPER ANTI-FOG | Double lenses combined with a unique heavy duty hydrophilic treatment on the inner lens.

GRIP ON STRAP | A special design on the inside of the strap to ensure the goggles stay in place and don't slip off.

TECH SPECS:

LENS | Cylindrical double lens | 100% UVA-UVB-UVC protection | Super Anti-Fog

FRAME | Width: 165 mm | Height: 100 mm

STRAP | Width: 40 mm | Approx. 80% R-PET fibers from recycled plastic bottles | Triple silicone line backing | 2-point slide adjustment system

WEIGHT | 130 g

HELMETS TECHNOLOGY

SMART IMPACT PROTECTION

Powered by SHRED's Rotational Energy System™ and SLYTECH® Shock Absorption.

To boost your confidence and fun, SHRED's Smart Impact Protection System™ effectively combats both rotational and linear forces. Simply put, this reduces harmful forces transmitted to your brain. SHRED's Rotational Energy System™ offers the lightest and thinnest solution for addressing rotational forces while SLYTECH® Shock Absorption maximizes the helmet's ability to dissipate linear impact energy. Unleash your potential with SHRED's Smart Impact Protection System.™

RECCO®

✓ Avalanche reflector

The Notion NoShock: a game-changer in the all-mountain and freeride helmet category. Hailed for its **extreme comfort** and **comprehensive protection**, this helmet is redefining standards by **checking all the boxes**. It's not just about protection; it's about embracing the mountain with confidence and style.

NOTION NOSHOCK

If you're a skier or snowboarder searching for a premium helmet that boosts your confidence by offering unrivaled technology to absorb both rotational and linear energy—while also striking the perfect balance between being lightweight and durable—look no further than the Notion NoShock. Equipped with SHRED's SMART IMPACT PROTECTION SYSTEM™, this new flagship helmet pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH® SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. Its hybrid construction combines the durability of a hard shell upper with the weight savings of an in-molded lower shell and sidewalls. A unique 3-position switch allows you to control the top, back, and side vents simultaneously. A passive RECCO reflector further enhances your safety while the helmet's Fidlock magnetic closure offers security and convenience. The Notion NoShock boosts your confidence, allowing you to charge harder and amplify your fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

SLYTECH® SHOCK ABSORPTION | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | 3-position switch controls top, back and side vents simultaneously.

RECCO® | Integrated reflector with passive technology that enables rescue professionals to search for you in the event of an avalanche or if lost outdoors.

FIDLOCK® | Magnetic closure to enhance convenience, security, and efficiency.

HEXAFLOW™ | Three-dimensional EPS with channels to enhance linear impact absorption and maximize ventilation.

TOTALITY NOSHOCK

Are you searching for a lightweight yet extremely durable hard shell ski and snowboard helmet that offers a superior fit and comfort and features unrivaled technology to address both rotational and linear energy absorption? Then the Totality NoShock is the perfect choice. Its SMART IMPACT PROTECTION SYSTEM™ pairs SHRED's ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—with the helmet's integrated honeycomb-cone-structured SLYTECH® SHOCK ABSORPTION to create an unparalleled synergy for combating linear and multi-directional forces. The Totality NoShock gives you the confidence you need to reach the next level, feel like a pro, and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorptive units made with an elastic layer.

SLYTECH® SHOCK ABSORPTION | SHRED's patented solution to increase linear impact energy dissipation. It integrates a slow memory honeycomb cone structure into the helmet's EPS impact absorption element.

XT2® | Anti-microbial technology to provide permanent odor protection.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

SL CHIN GUARD | Fully compatible with SHRED. Soft-Ear Chin Guards. See page 49 for details.

If you're a skier or snowboarder looking for a helmet to boost your confidence, the Notion is your perfect match. This premium helmet is designed to prioritize lightweight protection and all-day comfort. Featuring a hybrid shell, it combines a tough upper for durability with a lightweight lower for effortless wear. The Notion is equipped with SHRED.'s Rotational Energy System™ (RES)—the lightest, thinnest solution for managing rotational forces—and HEXAFLOW™ technology, a 3D EPS structure that enhances linear impact absorption while maximizing ventilation. Its easy-to-use 3-position airflow switch lets you adjust ventilation on the fly, keeping you cool and focused, whether carving groomers or exploring off-piste. The Notion delivers Confidence, Comfort, and Control so you can push your limits and amplify your fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

VENTILATION | 3-position switch controls top, back and side vents simultaneously.

Are you searching for a lightweight ski and snowboard helmet that addresses rotational energy absorption while also providing an unrivaled fit and style? Then look no further than the SHRED. Totality. Thanks to its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—and a ventilation system that maximizes vision and comfort by using 12 vents to pull warm air from your goggles and helmet, the Totality provides the performance, safety, confidence, and style you need to feel like a pro and have fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

VENTILATION | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

SL CHIN GUARD | Fully compatible with SHRED. Soft-Ear Chin Guards. See page 49 for details.

TECH SPECS:

CONSTRUCTION | Hard Shell | 12 vents

SAFETY STANDARDS | EN1077B (Europe snow) | ASTM F2040 (USA snow)

MATERIAL | SHRED. Shield toughened ABS | Super Light EPS

WEIGHT | 460 g [Size S]

IN THE BOX:

1 SHRED. Totality helmet | 1 SHRED. soft helmet bag

SHRED. helmets packaging is 100% plastic free

BASHER ULTIMATE

Are you a ski racer searching for the best-performing FIS-certified helmet that not only has the lowest profile, fits great, and looks amazing, but is also lightweight and offers unrivaled technology to address both rotational and linear energy absorption? Then the SHRED. Basher Ultimate is the perfect choice. Its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—is paired with Casidion™—a nanotechnology-based impact liner that's thinner and lighter than those used in other racing helmets—to create an unparalleled synergy for combating linear and multi-directional forces. Charge with confidence and boost your performance, style, and fun.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

CASIDION™ | Revolutionary nanotech foam that goes beyond the performance of traditional materials. This absorption element offers protection even in the case of repeated impacts and provides an extraordinarily high impact absorption efficiency, allowing it to be thinner and lighter than other commonly used components.

XT2® | Anti-microbial technology to provide permanent odor protection.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

CUSTOM FIT KIT | An additional set of thicker pads and ear pieces to fine tune the helmet's fit.

SL CHIN GUARD | Fully compatible with SHRED. Hard-Ear Chin Guards. See page 49 for details.

TECH SPECS:

CONSTRUCTION | Tapered Hard Shell with CASIDION™ Nanotech

If you're a ski racer searching for an FIS certified helmet that offers the best performance and style and features unrivaled technology to address rotational energy absorption, then look no further than the SHRED. Basher. Its **ROTATIONAL ENERGY SYSTEM™ (RES)**—which is the lightest and thinnest solution for addressing rotational forces—is paired with the helmet's Impact Recovery Liner to create an exceptional synergy for combating linear and multi-directional forces. Thanks to the SHRED. Basher, you can charge with confidence and elevate your performance.

FEATURES:

SHRED. ROTATIONAL ENERGY SYSTEM™ | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.

IMPACT RECOVERY LINER | Tough and durable EPP absorption element to provide superior protection during multiple impacts within a single accident.

FIS RH 2013 | Certified according to FIS RH 2013 ski racing helmet safety standards.

CUSTOM FIT KIT | An additional set of thicker pads and ear pieces to fine tune the helmet's fit.

SL CHIN GUARD | Fully compatible with SHRED. Hard-Ear Chin Guards. See page 49 for details.

PROTECTION TECHNOLOGY

AIRFLEX™: BACK PROTECTION REDEFINED

Engineered for the Future of Performance, Protection, and Comfort: Protection You'll Forget Until You Need It.

From the pioneers who brought soft protection to the slopes in 2006—revolutionizing a market dominated by rigid, hard plastic turtle-shell designs—SHRED. introduces AirFlex™ Technology, a groundbreaking advancement in back protection.

Powered by the redefined SLYTECH® 2ND SKIN™, the new AirFlex line sets a new standard for comfort, flexibility, ventilation, and protection:

- **35% Less Weight:** Every gram counts—effortless wear for maximum mobility.
- **Unmatched Flexibility:** The innovative 3D hexagonal grid adapts seamlessly to your every move.
- **Superior Ventilation:** Strategically placed perforations keep you cool and comfortable all day.
- **Enhanced Impact Absorption:** Evolved from our previous generation, it hardens more effectively upon impact, distributing energy across an even wider surface for superior protection.
- **Versatile Protection:** Available in Level 1 and Level 2 standards to meet the needs of all skiers and snowboarders.

PROTECTION TECHNOLOGY

Tailored Protection for Every Skier and Snowboarder

Explore the AirFlex Collection:

- **2ND SKIN Lite Vest:** Full-coverage design offering all-day comfort and flexibility.
- **2ND SKIN Lite Naked:** Minimalist belt and shoulder strap option for lightweight freedom.
- **2ND SKIN Heavy Duty Naked:** Advanced impact protection designed for high-intensity performance.

Airflex™ Shock
Absorption Unit

Each model is powered by Slytech® 2ND SKIN™, featuring redefined shock absorption technology that delivers unparalleled protection. So light and comfortable, you'll forget you're wearing it—until you need it most.

POWERED BY
SLYTECH®

2ND SKIN BACK PROTECTOR HEAVY DUTY

For those who demand the highest level of protection without compromising on comfort, the SHRED. 2ND SKIN Back Protector Heavy Duty is the ultimate choice. Engineered with our redefined Slytech® 2ND SKIN™ material, it provides advanced impact absorption while meeting the rigorous Level 2 safety standard. The innovative AirFlex™ 3D hexagonal structure ensures unmatched flexibility, ventilation, and a lightweight feel, allowing you to push your limits with confidence. Designed for skiers and snowboarders who won't settle for less, the SHRED. Back Protector Heavy Duty Naked keeps you protected, comfortable, and ready to conquer every run.

FEATURES

SLYTECH® 2ND SKIN™ | Engineered to feel like a natural extension of your body, it offers unmatched comfort and flexibility without compromising protection. Soft and pliable as you ride, it hardens instantly upon impact to shield you from even the harshest crashes. With SLYTECH® 2ND SKIN™, experience the pinnacle of innovation where protection and comfort become one.

SLYTECH® AirFlex™ | Advanced 3D hexagonal structure that significantly enhances the performance, comfort, and protection of our proprietary SLYTECH® 2ND SKIN™ technology by reducing weight, increasing flexibility, and optimizing ventilation.

This spare belt can be used as a replacement or to adjust the fit if the waist strap on your back protector is too large or too small. For the Lite Naked back protector, it also provides added back support for extra comfort.

2ND SKIN BACK PROTECTORS LITE

Are you searching for a lightweight back protector that delivers exceptional comfort and safety, so you can forget it's there until you truly need it? The SHRED. 2ND SKIN Back Protector Lite collection is your answer. Featuring the revolutionary AirFlex™ 3D hexagonal structure and powered by SLYTECH® 2ND SKIN™, these protectors provide certified Level 1 impact protection while significantly reducing weight, enhancing flexibility, and optimizing ventilation. Choose between the SHRED. 2ND SKIN Back Protector Lite Vest for ultimate freedom of movement or the SHRED. 2ND SKIN Back Protector Lite Naked version with a minimalist belt and shoulder strap system for unconstrained confidence. Push your limits, ride with confidence, and enjoy every moment on the slopes.

FLEXI ELBOW AND KNEE PADS

If you're a skier or snowboarder searching for more protection, the SHRED. Flexi Elbow and Knee Pads Lite are the perfect addition to your kit thanks to their unrivaled comfort, mobility, protection, and pedalability. Their SLYTECH® SHOCK ABSORPTION protective element molds to your skin to match every move you make and is exceptionally thin, flexible, light, and breathable. Anatomically-shaped Spandex stretch sleeves securely hold the pads in place and Armortex® fabric over the protective element provides abrasion and puncture resistance. Get the confidence you need to feel like a pro and have fun.

FEATURES

SLYTECH® SHOCK ABSORPTION | Built for those who value dependable protection and everyday comfort. It adapts intelligently to your movements—soft and flexible during use, yet hardening to absorb impact when you need it most. Lightweight and reliable, SLYTECH® SHOCK ABSORPTION lets you ride with confidence.

SLYTECH® Flexi | SLYTECH® Shock Absorption molded with a hexagon structure is especially thin and light while also offering unrivaled flexibility and certified impact energy absorption.

ARMORTEX® | This tough, elastic fabric on the front panels of the pads enhances durability, offering protection from abrasion and punctures while also stretching to provide comfort and a refined fit.

1 SHRED. All MTN Protective Mittens Soft

SKI RACE PROTECTIVE GLOVES

If you're a ski racer looking for a pair of gloves or mittens that protect the back of your hands and your thumbs while providing unparalleled abrasion resistance and durability, the SHRED. Ski Race Protective Gloves or the SHRED. Ski Race Protective Mittens are the perfect choice. Their SLYTECH® Foam offers unrivaled impact energy absorption around your knuckles and thumb while PRIMALOFT® insulation provides exceptional warmth. The gloves also feature SUPERFABRIC® armor plates on the back of the hand, overlay panels for compatibility with arm guards, a tacky grip layer on the palm, and a nose wipe for additional comfort. Ski with confidence and unleash your potential.

FEATURES:

SLYTECH® SHOCK ABSORPTION | Built for those who value dependable protection and everyday comfort. It adapts intelligently to your movements—soft and flexible during use, yet hardening to absorb impact when you need it most. Lightweight and reliable, SLYTECH® SHOCK ABSORPTION lets you ride with confidence.

PRIMALOFT® insulation | Ultra-fine microfiber insulation that is warm, soft, and lightweight.

THUMB PROTECTION | Strategically placed SLYTECH® Shock Absorption pads to protect against skier's thumb

SUPERFABRIC® | SuperFabric armor plates for unrivaled durability and abrasion resistance.

TACKY GRIP™ | Specially formulated leather to provide unparalleled grip on poles.

CARBON SHIN GUARDS

If you're a ski racer looking for unrivaled performance when you clear slalom gates, SHRED. Carbon Shin Guards are the perfect choice. Their SLYTECH® SHIELD CARBON advanced composite material provides exceptional protection and features ADVANCED GATE GLIDE technology to minimize friction. And to stay in place, they sport SHRED. GRIP PADS. With their unparalleled shin protection and gate clearing speed, the SHRED. Carbon Shin Guards provide the confidence you need to focus on your skiing and feel like a pro.

FEATURES:

SLYTECH® SHIELD CARBON | A high performance material blend that combines carbon fiber technology and our SLYTECH® SHIELD CARBON material to create shells that are extraordinarily durable yet lightweight and that provide the best performance at all temperatures.

ADVANCED GATE GLIDE™ | NOFRICTION+ technology integrates a friction-reducing additive into the SLYTECH® SHIELD CARBON composite material. This acts as a lubricant, minimizing friction and drag between the guard and gates to boost speed.

BELUSHKI

If you love the outdoors and need sunglasses to pursue your passion – with plenty of style – look no further than the SHRED. Belushki. Armed with a timeless design, it features flatter lenses with a base six curve. Made of liquid-cast urethane, these lenses showcase SHRED's CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors – no matter the terrain or conditions. The Belushki also features a featherlight NOWEIGHT™ frame and strategically-positioned rubber pads ensure it stays in place. The Belushki gives you the confidence, performance, and style you need to elevate your game and amplify your fun.

FEATURES:

SHRED. CONTRAST BOOSTING LENS™ | Enhances contrast and definition for all weather, surface, and light conditions.

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.

SHRED. POLARIZED | Polarizing filters of the highest quality enhance our lenses and reduce glare by blocking all angles of light that are scattered and reflected from surfaces such as water, snow, and ice.

SHRED. NOSLIP™ | Specially formulated rubber pads on the nose and temple tips to further enhance comfort and ensure the frames stay in place while you're in motion.

TECH SPECS:

LENS | Liquid-cast urethane lenses provide exceptional optical precision and impact protection | Base 6 lens provides a flatter look | 100% UVA-UVB-UVC protection | Lens width: 50.1 mm / 1.97 in | Lens height: 42.3 mm / 1.66 in

STOMP

If your life revolves around the outdoors and you need sunglasses that offer exceptional clarity and contrast, the SHRED. Stomp is just what you need—no matter the adventure. Its liquid-cast urethane lenses showcase SHRED.'s CONTRAST BOOSTING LENS™ (CBL) technology to enhance contrast, image definition, and the vividness of colors. With a base six curve, these lenses provide the featherlight NOWEIGHT™ frame with a flatter appearance. Strategically-positioned rubber pads also ensure the frames stay in place while you're in motion. By infusing a classic design with unrivaled performance, the Stomp boosts your confidence, style, and fun.

FEATURES:

SHRED. NOWEIGHT™ | Especially light, thin, and flexible, this frame design reduces the material used in interior areas subject to minimal stress and reinforces target areas for maximum durability. This creates tremendous strength without compromising the clean, streamlined appearance of the frame's exterior.
